

Timing belts for high performance drives

optibelt *OMEGA HP* *KARTPOWER*

Optibelt OMEGA HP high power timing belts have been specially developed for highly loaded, fast running drives. Improved materials such as rubber compound filled with aramid fibres and an extremely wear-resistant fabric with exceedingly low friction coefficients and a temperature resistance of -30 to $+100$ °C, make this timing belt the first choice and not just for karting.

Performance comparison

Sections:

5M, 8M, 14M

Dimensions:

265 bis 4578 mm

Racer dimensions:

720 8M-HP 30

840 8M-HP 30

880 8M-HP 30

Timing pulleys:

HTD® or RPP®
